

This filing with the FCC is on Proceeding 17-108: Restoring Internet Freedom.

As a citizen who will be impacted by the repeal of Net Neutrality, would like my opinion and voice to be heard. I support Title 2 oversight of ISPs and I STRONGLY OPPOSE the repeal of net neutrality rules.

ISPs are the gatekeepers to the internet and I strongly agree that these companies have the ability and incentive to harm competition and consumers by establish unfair advantages and disadvantages simply because of their roles as internet providers. ISPs should be regulated and should have government oversight for the protection of all internet users. As the name implies, the internet should be neutral and the use and content should be equal among all fields.

All citizens should benefit from the use of the internet not the large corporations that operate it. There is no reason to repeal net neutrality.

Thank you,

Meghan Karlik
